	ROBIN MMX Spot	The Robe MMX is a new technology discharge fixture that has similar light output to most existing 1200W luminaires. The unit is based on the all new Robin advanced technology design that provides Brighter, more efficient, physically lighter and smaller fixtures than previously possible. The MMX includes the Robe exclusive Hot-Spot lamp control feature that allows remote adjustment of flat beam uniformity or power beam hot-spot. Key feature of the MMX is the 'Dual Graphics Wheel' - 2 fully controllable contra-rotating plates that can be positioned anywhere across the light path to produce unique visual effects	Dual Top Loader case	1061 6401	57.150,-
			Single Top Loader case	1051 6401	59.200,-
			Cardboard	1001 6401	53.400,-
	ROBIN MMX Spot/W	The Robe MMX is a new technology discharge fixture that has similar light output to most existing 1200W luminaires. The unit is based on the all new Robin advanced technology design that provides Brighter, more efficient, physically lighter and smaller fixtures than previously possible. The MMX includes the Robe exclusive Hot-Spot lamp control feature that allows remote adjustment of flat beam uniformity or power beam hot-spot. Key feature of the MMX is the 'Dual Graphics Wheel' - 2 fully controllable contra-rotating plates that can be positioned anywhere across the light path to produce unique visual effects. Wireless CRMX™ technology from Lumen Radio included as standard accessory.	Dual Top Loader case	1061 6421	58.350,-
			Single Top Loader case	1051 6421	60.400,-
			Cardboard	1001 6421	54.600,-
	ROBIN DLX Spot	ROBIN DLX Spot uses new unique RGBW LED light source with colour output brighter than a discharge source 575 Watts unit, but with nature friendly average power consumption of only 250 Watts. Its optical system produces a very smooth, high quality light output of rich, beautiful colours with no shadows utilizing a versatile zoom of 10 – 45 degrees. Effect features are combined of static and rotating gobo wheels with custom replaceable positions, variable frost, three-faceted prism, superfast iris and more, including full range dimming and variable strobe effect.	Dual Top Loader case	1071 8301	44.400,-
			Single Top Loader case	1051 8301	45.600,-
			Cardboard	1001 8301	41.400,-
	ROBIN DLX Spot/W	ROBIN DLX Spot uses new unique RGBW LED light source with colour output brighter than a discharge source 575 Watts unit, but with nature friendly average power consumption of only 250 Watts. Its optical system produces a very smooth, high quality light output of rich, beautiful colours with no shadows utilizing a versatile zoom of 10 – 45 degrees. Effect features are combined of static and rotating gobo wheels with custom replaceable positions, variable frost, three-faceted prism, superfast iris and more, including full range dimming and variable strobe effect. Wireless CRMX™ technology from Lumen Radio included as standard accessory.	Dual Top Loader case	1071 8351	45.650,-
			Single Top Loader case	1051 8351	46.750,-
			Cardboard	1001 8351	42.650,-
	ROBIN 1200 LEDWASH	The super-slim ROBIN® 1200 LEDWash features 61 x 10 Watt RGBW multichip LEDs with color output ranging from gentle pastels to the richest saturation. Arranged in 4 concentric rings these LEDs offer unique possibilities for creating stunning color and pattern audience blinding and eye candy effects as well as for providing comprehensive and perfectly even wash coverage. This system sets the LEDWash 1200 ahead of any other LED wash light products, making it a truly 'multi-purpose' unit, equipped also with extremely versatile 15 – 60 degree motorized zoom, powerful fast strobing and pre-programmed strobe and pulse effects at all zones (rings) or individually controllable per each zone. Wireless CRMX™ technology from Lumen Radio included as standard accessory.	Quad Top Loader case	1087 0461	43.550,-
			Dual Top Loader case	1077 0461	44.800,-
			Single Top Loader case	1057 0461	44.400,-
			Cardboard	1007 0461	41.400,-

	Black EggCrate for ROBIN 1200 LEDWash	Replaceable egg crate module provides different look of the multi-source front face of the fixture. Black egg crate separates each cell especially well for color chases between independently controllable rings.	Cardboard	1098 0116	265,-
	TOP HAT ROBIN 1200 LEDWash	Replaceable egg crate module provides different look of the multi-source front face of the fixture. Black egg crate separates each cell especially well for color chases between independently controllable rings.	Cardboard	1098 0112	992,-
	ROBIN 600E Spot	The ROBIN 600 Spot has a dramatically increased light output (from the 300 Series) and lower power requirements. The super strong light-output can be maximised by using ROBE's unique HotSpot Control system together with the linear iris to create very powerful beam effects. An innovative patented cooling system ensures the best lamp operating temperatures and allows DMX controlled noise reduction. Users have complete control of all features of this fixture, making it ideal for environments where noise levels are critical and light output requirements are high.	Dual Top Loader case	1071 7401	45.200,-
			Single Top Loader case	1051 7401	46.300,-
			Cardboard	1001 7401	42.150,-
 	ROBIN 600E Spot/W	The ROBIN 600 Spot has a dramatically increased light output (from the 300 Series) and lower power requirements. The super strong light-output can be maximised by using ROBE's unique HotSpot Control system together with the linear iris to create very powerful beam effects. An innovative patented cooling system ensures the best lamp operating temperatures and allows DMX controlled noise reduction. Users have complete control of all features of this fixture, making it ideal for environments where noise levels are critical and light output requirements are high. Wireless CRMX™ technology from Lumen Radio included as standard accessory.	Dual Top Loader case	1071 7421	46.350,-
			Single Top Loader case	1051 7421	47.550,-
			Cardboard	1001 7421	43.350,-
	ROBIN 600E Wash	The ROBIN 600 Wash also features a massively increased light output and lower power requirements – thanks to an optimized optical path comprising of carefully selected components. A unique silent control system enables users to carefully adjust the desired noise levels while maintaining the best lamp operating temperatures, due to the newly patented lamp cooling system. All ,top hat'accessories are compatible with the new ROBIN 600 Wash fixture.	Dual Top Loader case	1072 7401	37.650,-
			Single Top Loader case	1052 7401	38.750,-
			Cardboard	1002 7401	34.650,-

	ROBIN 600E Beam	<p>The ROBIN 600 Beam has an amazing linear iris ranging between 1 and 6.5 degrees. By implementing this feature over a wider range, users can have full control over the beam size. It has also enabled the provision of more gobos in the gobo wheels for customizable beam shaping. Two blackhole positions are available for a full and fast blackout in dark-sensitive environments. The extended focusing range also allows for very precise focusing, starting with closer distances.</p>	Dual Top Loader case	1071 7451	39.900,-
			Single Top Loader case	1051 7451	41.050,-
			Cardboard	1001 7451	36.900,-

	ROBIN 300E Wash	<p>The ROBIN® 300E Wash will be loved by anyone needing a wide and even wash of colours over a large area provided by a quiet and unobtrusive fixture. A flexible, lightweight, silent unit with an extremely wide zoom of 4° – 40°. The compact dimensions make it easy to conceal whilst providing an efficient wash effect in the gentlest of pastels for the richest of saturated colours. The enhanced CMY+CTO system mixes real colour correction quickly and accurately. The 7+1 colour wheel with its easily replaceable magnetic positions can spin rainbow effects at both high and low speeds. The new innovative remote hot-spot control combined with extremely fast iris is delivers maximum lumen output at any beam angle from 4° – 40° – amazing feature – never seen before.</p>	Dual Top Loader case	1072 2401	31.550,-

	Single Top Loader Case Robin 100 Ledbeam	This case provides perfect protection for Robin 100 LEDBeams in the touring and rental market. It is constructed from high-quality, water repellent 13 mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transportation.		1012 0121	2.380,-
	Twelve-Pack Top Loader Case Robin 100 Ledbeam	This Twelve-Pack Top Loader Case provides full protection for twelve ROBIN 100 LEDBeam units. It was built to endure the rigours the touring and rental market. The case is manufactured from high-quality, water repellent 13 mm thick plywood. Features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable smooth handling.		1012 0122	8.595,-
	ColorSpot 2500E AT II	The ColorSpot 2500E AT features a new powerful Philips MSR Gold 1500 FastFit lamp. This gives the fixture an extremely powerful light output, with a zoom range of 10° – 30°. The mechanical dimmer/shutter system provides very smooth dimming. The ColorSpot 2500E AT was designed especially for large stages, big concert halls, outdoor applications and all professional installations where large light output sources or search-light effects are needed.	Dual Touring case	1061 5211	67.850,-
			Cardboard	1001 5211	62.550,-
	ColorWash 2500E AT II	The ColorWash 2500E AT is newly equipped with a the Philips MSR Gold 1500 FastFit lamp, which makes it the most powerful Robe moving wash light fixture. The ColorWash 2500E AT comes complete with CMY colour mixing system, variable CTO, 2 colour wheels and combined dimmer/shutter unit. The linear zoom has a range of 7° – 44°. The ColorWash 2500E AT is an ideal tool for large live events and television shows and for all types of installations from multipurpose venues to large clubs.	Dual Touring case	1062 5211	58.450,-
			Cardboard	1002 5211	53.200,-
	ColorBeam 2500E AT	ColorBeam 2500E AT™ delivers extremely bright, strong and punchy beam light output. This product is dedicated to the largest applications where extremely powerfull beam-effect fixtures are required. On board Multi-step zoom provides optional beam size from 1.5 – 10 degrees. Rotating gobos and Rotating prism create beautiful mid-air effects. ColorBeam 2500EAT provides full CMY/CTO and variable frost for creating nice washlight effects.	Dual Touring Case	1061 5271	65.500,-
			Single Touring Case	1051 5271	66.400,-
			Cardboard	1001 5271	60.250,-
	ColorSpot 1200E AT Profile	The inbuilt framing shutters enable the fixture to be used like any standard profile discharge lightsource, when very precise framing and pin-pointing of objects and areas onstage is required. This will be of great interest for theatrical applications and TV productions. For full flexibility, the framing shutter module uses 4 rotating blades, and the final framed image can also be rotated. All other features and functions are similar to the standard ColorSpot 1200E ATTM, with 1 x rotating gobo wheel, 1 x frost effect and iris, 1 x colour wheel and variable CMY and CTO.	Dual Touring Case	1061 4221	60.250,-
			Single Touring Case	1051 4221	61.900,-
			Cardboard	1001 4221	54.950,-
	ColorSpot 1200E AT	The ColorSpot 1200E AT is an electronic ballast version of ColorSpot 1200 AT, which adds even more features like flicker-free operation, enhanced light output, extended lamp life, power-saving mode for economy and reduced weight.	Dual Touring case 1200/2500	1061 4250	58.450,-
			Cardboard	1001 4250	53.200,-

	ColorSpot 1200AT	<p>The ColorSpot 1200 AT is designed as the ultimate creative tool for large theatre, TV and live shows and for installations in multi-purpose venues and large clubs. The fixture uses a powerful Philips 1200 SA discharge lamp lightsource. This is further boosted by a high quality super-efficient optical system, making the ColorSpot 1200 AT one of the brightest moving fixtures currently on the market. Major features include a versatile CMY colour mixing system, variable CTO plus an additional colour wheel, 12 rotating indexable, replaceable dichroic glass gobos on two wheels offering 48 gobo combinations, iris, 4 rotating prisms and effects, variable frost, an incredibly flexible 13 – 42 degree linear zoom, remote focus, dimmer and shutter. Its progressive colour temperature correction system – from 5600K to 3200K is designed for use in television and film applications.</p>	Dual Touring case 1200/2500	1061 4201	50.600,-
			Cardboard	1001 4201	45.350,-
	ColorWash 1200E AT	<p>The ColorWash 1200E AT is a powerful moving head wash light that comes complete with a CMY colour mixing system; variable CTO; 2 colour wheels - each with 6 easily replaceable slots for colours and effects; a combined dimmer/shutter and many more features. The ColorWash 1200E AT zoom has a range of 10° - 87° depending on the lens type used. The electronic ballast enables features like flicker-free operation, extended lamp life and power-saving mode. The large LCD display - highly successful on Robe's ColorSpot 1200 AT profile fixture, makes the operation of the ColorWash 1200E AT quick and easy. An Ethernet connection offers additional connectivity. The ColorWash 1200E AT is an ideal tool for large theatres, live and television shows, and for all types of installations from multi-purpose venues to large clubs.</p>	Dual Touring case 1200/2500	1062 4201	52.200,-
			Cardboard	1002 4201	46.900,-
	ColorBeam 700E AT	<p>The ColorBeam 700E AT is a special beam effect offering a tight, punchy, powerful beam with an angle ranging from 1.5 – 6.5 degrees – for additional flexibility. The 7 rotating and 9 static gobos - all using Robe's amazing "SLOT&LOCK" system - when combined with the prism, offer the possibility of creating stunning, abstract aerial effects. This further enhances the ColorBeam 700 as a tool for those with fertile imaginations! As is standard with all Robe's other 700 Series fixtures - other features include an ultra-smooth colour mixing system plus CTO, and a colour wheel with 7 "SLOT&LOCK" options.</p>	Dual Touring Case	1061 6251	49.800,-
			Single Touring Case	1051 6251	51.350,-
			Cardboard	1001 6251	44.800,-
	ColorSpot 700E AT	<p>The ColorSpot 700E AT marks a new series of Robe 700 W movinghead fixtures. Featuring the MSR GOLD 700 FastFit lamp, it is ideal for all professional applications and installations. It also offers a full CMY and CTO colour mixing systems, a colour wheel with 7 replaceable "SLOT&LOCK" dichroic filters; a static gobo wheel with 9 replaceable "SLOT&LOCK" gobos and a rotating gobo wheel with 7 replaceable "SLOT&LOCK" gobos; a replaceable animation wheel and a rotating 3-facet prism. The zoom range is 15° - 51° and there's also dimmer, shutter, strobe effects.</p>	Dual Touring case 700	1061 6201	55.000,-
			Cardboard	10016201	50.050,-
	ColorWash 700E AT	<p>The ColorWash 700E AT is the first Wash fixture using the MSR GOLD 700 FastFit lamp in the Robe range. This powerful moving head offers a full CMY + CTO colour mixing system, a colour wheel with 7 replaceable "SLOT&LOCK" dichroic filters, a rotating beam shaper and a linear zoom range of 6° - 45°.</p>	Dual Touring case 700	1062 6201	47.950,-
			Cardboard	1002 6201	43.000,-

	ColorSpot 575AT	The ColorSpot 575 AT includes all the effects imaginable - two separate gobo wheels with the "SLOT&LOCK" system, two separate colour wheels (one with the "SLOT&LOCK" system), motorized multi-step zoom with three different apertures of 15, 18 and 22 degrees, motorized iris, prism, separate and variable frost effect, remote focus and more. A new optical system and a new dichroic glass reflector increase the light output of the ColorSpot 575 AT. Completely new software enables very smooth rotations of gobos and prism, and 8- or 16-bit resolution for gobo indexing, prism indexing and dimmer. This product is the right solution for all types of installations from big clubs, large discotheques and venues to concerts and touring applications.	Dual Touring case 575	1061 3201	28.900,-
			Cardboard	1001 3201	24.200,-
	ColorWash 575AT	The ColorWash 575 AT is ideal for theatres, TV studios, medium sized stage applications and all applications requiring a "workhorse" 575 lamp. Offering full CMY, variable CTO, colour-wheel with 5 replaceable colours + open, combined dimmer/shutter and rotatable beam shaper, indexable 360° with continuous rotation. The standard zoom angle has a range of 12° - 34°, extendable with an optional lens to make 24° - 60°.	Dual Touring case 575	1062 3201	28.900,-
			Cardboard	1002 3201	24.200,-
	ColorWash 575AT Zoom	The ColorWash 575 AT Zoom includes all the features of the ColorWash 575 AT, and is enhanced with an extremely smooth linear motorized zoom that ranges from 8° to 50°. This is a great advantage, enabling the fixture a wider light output, making the ColorWash 575 AT Zoom suitable for all types of professional installations.	Dual Touring case 575	1062 3211	28.900,-
			Cardboard	1002 3211	24.200,-
	ColorSpot 250AT	The ColorSpot 250 AT includes a new rotating gobo wheel with 7 replaceable "SLOT&LOCK" dichroic glass gobos + open, and a new colour wheel hosting 10 replaceable "SLOT&LOCK" colours + open. The 3-facet rotating prism is now also replaceable. Completely new software enables very smooth rotations of gobos and prism, and 8 or 16-bit resolution for gobo indexing, prism indexing and dimmer. The improved cooling system ensures better operating conditions for lamp and reduces noise at the same time. The ColorSpot 250 AT is aimed at the TV studios, small and middle sized clubs and discotheques, and various types of installations.	Dual Road case 250	1071 2250	15.600,-
			Cardboard	1001 2250	14.050,-
	ColorWash 250AT	A completely new optical system makes this fixture 50% brighter than its predecessor, the Wash 250 XT. New ultra smooth CMY colour mixing offers a fantastic spectrum of hues. A motorized zoom effect ranges from 8° - 32° and the extremely silent cooling system and movement make this fixture a superb choice for TV and theatre. The colour wheel offers 6 saturated colours + open, using Robe's renowned "SLOT&LOCK" system. Frost filter and a beam shaper are available on the effect wheel. As with all other Robe AT moving heads, 16-bit resolution is available for movement, colour wheel positioning and dimming.	Dual Road case 250	1072 2201	15.600,-
			Cardboard	1002 2201	14.050,-
	ColorSpot 170AT	The ColorSpot 170 AT is designed for multiple applications and is ideal for architectural lighting, bars, restaurants, shops, retail environments, product launches and events and for use as an image projector for advertising. The ColorSpot 170 AT offers many more features than its predecessor, including a new rotating gobo wheel, a new colour wheel, remote focus facility, "SLOT&LOCK" colour and gobo changing system, remote lamp on/off and very fast movement. It utilises a long-life lamp source. Onboard master/slave programming enables 300 scenes to be stored in the onboard memory - ideal for stand-alone operation and scenarios. The unique combination of RGBW LED colours delivers a stunning quality of white light, not seen in other competitive products.	Single Touring Case	1057 0251	47.000,-
			Cardboard	1007 0251	40.700,-
 	CityScape Xtreme RGBCW 10° / W	The most powerful outdoor LED fixture on the market, 188 High Power Luxeon K2 RGBW LEDs! The LEDs are densely populated, providing an extremely bright light output. The unit is completely silent due to the convection cooling system, and its IP 65 rating means it can be used for a variety of exterior installations. The unique combination of RGBW LED colours delivers a stunning quality of white light, not seen in other competitive products.Wireless CRMX™ technology from Lumen Radio included as standard accessory.	Single Touring Case	1057 0381	49.800,-
			Cardboard	1007 0381	42.050,-
	Barn door module for CityScape Xtreme (2pc/Box)	Adjustable barn door module allows beam shaping and light spill elimination.	Cardboard	1098 0064	2.875,-

	Top Hat CityScape Xtreme black (2pc/Box)	Additional Top Hat module is especially suitable for blocking of side view at the LED front face of the fixture.	Cardboard	1098 0085	628,-
	Half Top Hat CityScape Xtreme black (2pc/Box)	Additional Top Hat module is especially suitable for blocking of side view at the LED front face of the fixture.	Cardboard	1098 0086	628,-
	CityScape 48 RGBCW 12°	The CityScape 48 is designed to produce rich, saturated colours and colour changing effects for wall-washing, spot lighting and highlighting elements like large alcoves and tall buildings. It is a durable and robust fixture with a projected lifespan of at least 60,000 hours. Made from cast metal, includes inbuilt power supply and an intelligent LED driver. The head is made up of a cast aluminium radiator onto which the LED matrix and lenses are fitted. The head can be moved in relation to the base in ranges: pan+45°/-45°, tilt+60°/-90°.	Octuple top-loader case	1087 0263	9.655,-
			Quad top-loader case	1077 0263	9.720,-
			Cardboard	1007 0263	8.660,-
	CityScape 48 SW 12°	The CityScape 48 is designed for wall-washing, spot lighting and highlighting elements like large alcoves and tall buildings. It is a durable and robust fixture with a projected lifespan of at least 60,000 hours. Made from cast metal, includes inbuilt power supply and an intelligent LED driver. The head is made up of a cast aluminium radiator onto which the LED matrix and lenses are fitted. The head can be moved in relation to the base in ranges: pan+45°/-45°, tilt+60°/-90°. 	LEDForce 7 RGBW 10°	<p>LEDForce 7 RGBW are new compact TriColor and Quadcolor LED based Par Can fixtures in sturdy high-impact aluminum body equipped with 7 x 3 Watt Tri Color RGB LEDs and 7 x 5 Watt Quad Color RGBW LEDs. Fitted with LED control display for easy setting up and with double hanging brackets – for truss mounting and floor standing. Powerful Tri-color and Quad-color LEDs will amaze you with bright saturated colors with no multicolor shadows. Special driving technology ensures flicker free operation while maintaining long 50.000 hours of LED's life time.</p>	Cardboard	1018 0002	2.115,-
	LEDForce 18 RGBW 25°	<p>LEDForce 18 RGBW Par Cans will blind you with powerful light output of 18 x 3IN1 RGB LED or 18 x 3IN1 RGBW LED multichip New Tri-color and Quad-color LED technology. Superior color mixing with no multicolor shadows and extremely bright beam of 25° beam angle will please any lighting professional. Die cast aluminum casting with double hanging brackets – for truss mounting and floor standing allows mounting in any position. Gel frame included as standard and optional 10° lens kit available upon demand.</p>	Cardboard	1018 0022	5.155,-

	LEDForce 18 RGBW eXterior 25°	LEDForce 18 eXterior RGBW are perfect fit for any outdoor installations where both powerful output and IP 65 rating of is required. Extremely bright 25°beam with no multicolor shadows is provided by new Tri-color and Quad-color LED technology 18 x 3IN1 RGB LED or 18 x 3IN1 RGBW LED multichip with optional 10° lens kit available. Die cast aluminum casting with double hanging brackets for mounting in any positions, LED set up and control display with auto shut function and Universal Internal Power supply are only few admirable features of many of this Par Can which is a good companion to any lighting designer.	Cardboard	1018 0042	5.820,-
	LEDForce PAR 18 RGBW 25°	LEDForce 18™ RGBW Par Cans with 18 x 4IN1 RGBW LED will blind you with powerful light output of multichip Quad-colour LED technology. No multicolour shadows and extremely bright beam of 25° beam angle - this is the result of superior colour mixing lens system. Low weight aluminum housing with double hanging brackets – for truss mounting and floor standing allows mounting in any position. Gel frame included as standard and optional 10° lens kit available upon demand.	Cardboard	1018 0051	3.405,-
	Barndoor for LEDForce 7, black	Adjustable barn door module allows beam shaping and light spill elimination.	Cardboard	1098 0073	132,-
	Barndoor for LEDForce 18, black	Adjustable barn door module allows beam shaping and light spill elimination.	Cardboard	1098 0074	198,-
	25° lens kit for LEDForce 7	Beam modifying lens module.	Cardboard	1098 0075	331,-
	10° lens kit for LEDForce 18	Beam modifying lens module.	Cardboard	1098 0076	463,-
	Lens Module 45°	Beam modifying lens module.	Cardboard	1098 0053	1.455,-
	Lens Module 15°x45°	Beam modifying lens module.	Cardboard	1098 0054	1.455,-
	Glass holder for frost filters	Holder of additional filters/gels.	Cardboard	1098 0055	827,-
	Cyber PRO II	Second generation of the Cyber Control software contains many new and improved features and functions, including support for both 32/64-bit computer versions, new Easy Stand Alone PRO software and newly designed hardware interfaces with more XLR connectors, SD Card data storage, real time clock and others.Cyber Pro II is using a new USB-DMX interface with 3 DMX universes + 4 ArtNet universes (via the computer network interface) and miniSD CARD memory. Cyber Pro II is the only interface which is compatible with new Cyber Control II + Easy Stand Alone PRO software and therefore offers multiple extra functions.	Cardboard	1008 0240	18.350,-

	Cyber Arch	<p>Second generation of the Cyber Control software contains many new and improved features and functions, including support for both 32/64-bit computer versions, new Easy Stand Alone PRO software and newly designed hardware interfaces with more XLR connectors, SD Card data storage, real time clock and others. Cyber Arch is using a new USB-DMX interface with two 512 DMX-out channels and miniSD CARD memory. Designed especially for architectural installations, it allows easy control of lighting within a variety of places such as homes, hotels, restaurants, fountains, gardens, and many more.</p>	Cardboard	1008 0230	7.965,-
	Cyber MINI	<p>Second generation of the Cyber Control software contains many new and improved features and functions, including support for both 32/64-bit computer versions, new Easy Stand Alone PRO software and newly designed hardware interfaces with more XLR connectors, SD Card data storage, real time clock and others. The Cyber Mini is the perfect product for small applications with less than 60 DMX channels. It offers a standalone memory with a maximum of 40 steps (60 channels) as well as 6 (4 + next/previous) ports for dry contacts triggering.</p>	Cardboard	1008 0235	4.000,-
	DMX Control 512	<p>The DMX Control 512 offers control of up to 16 fixtures with a maximum of 32 channels each. The DMX Control 512 supports ROBE and all other popular lighting brands. A show of up to 1024 Scenes can be created consisting of Presets and Chases. The DMX Control 512 uses Flash memory for easy software updates via a computer (RS 232). The DMX Control 512 is suitable for all range of AT, CT and LT series.</p>	Cardboard	1008 0060	5.885,-
	RMS-ROBE Media Server	<p>The RMS – ROBE Media Server completes successful Robe Digital series. The graphics engine provides all features of DigitalSpot 7000 DT (e. g. four digital gobo layers with selection of up to more than 60.000 original and usercreated video clips or images usable on all gobo layers, picture merging effect, projection onto cylindrical/spherical surfaces and angular effects, individual X and Y positioning, CMY colour mixing, digital iris and digital framing shutters, adjustable playback speed and many other features). Supported video formats are MPG1 and MPG2, image formats are JPG, TGA, PNG, GIF, PCX, PNM, XPM and LBM. Hardware includes Intel Core 2 Duo E8400 processor, 500 GB hard disc, 1 GB RAM memory, nVidia 9800 GT graphics card and GA-G41M-ES2H motherboard. Easy manual control via 5 TFT LCD display & Robe navigation system.</p>	Cardboard	1008 0220	37.650,-
	RDM Communicator	<p>The RDM communicator is a tool box for remote setting of Robe and Anolis fixtures via DMX link. Its main purpose is to set fixture options (DMX address, DMX mode...etc) for Anolis non-display fixtures like ArcPad Xtreme, ArcPad 48 Integral but can be used with any Robe or Anolis fixtures which support RDM protocol.</p>	Cardboard	1008 0190	3.270,-
	Robe Universal Interface	<p>Robe Universal Interface is a special intelligent DMX/USB interface developed in order to enable the user to take advantage of remote fixture setting and manipulation through RDM (Remote Device Management) protocol, to provide remote control of Robe Media Fusion software via traditional DMX Console or to perform a software upgrade of Robe fixtures without the need for special flashing cable.</p>	Cardboard	1008 0160	3.435,-
	Robe Universal Interface WTX	<p>Wireless DMX+RDM enhanced version of the Robe Universal Interface magnifies this powerful multi-functional toolbox. The unit communicates with a PC or Laptop via USB and besides the standard Robe Universal Interface features it provides wireless capabilities for both DMX controlling and bi-directional RDM setup, management and monitoring. Fixture software updates can now be carried out via either wired or wireless link. The wireless communication is based on robust CRMX technology which includes advanced features such as automated cognitive coexistence, DMX fidelity, low latency, strong encryption and more.</p>	Cardboard	1008 0245	5.255,-

	Faze 1050 FT	FAZE 1050 FT is equipped with a range of sophisticated features which include a high precision PCB design; aluminum cast heater, a silent heavy duty pump and controllable twin fans. Precise fan control is achieved by 3 adjustable levels with DMX on-board. DMX connection can be worked by either 3 or 5 pin connector.	Cardboard	1009 0023	4.100,-
	Faze 800 FT Pro	FAZE 800 FT Pro offers a new concept of Faze machine that is using both liquid and air pumps where the liquid in the pipes is mixed with air bubbles before it goes to the internal 800W heater. This new system provides many advantages such as dry fog, less liquid consumption and less residues on the stage and equipment.	Cardboard	1009 0070	6.245,-
	Fog 1550 FT	FOG 1550 FT ensures only the purest, driest white fog is produced to the satisfaction of all demanding industry professionals. The electronic fluid level sensor stops operation in low-fluid situations offering complete protection to the heavy-duty and silent running pump and the 100% pure aluminum cast heater.	Cardboard	1009 0003	3.505,-
	Fog 1000 FT	FOG 1000 FT uses mirror-piping heater technology that supports advance features and high-throughout burst mode with its extreme low energy consumption. DMX on-board or built-in electronic low fluid detector are among another included features. Light weight, sleek and compact design, easy installation and maintenance.	Cardboard	1009 0060	2.510,-
	Fog 850 FT	The FOG 850 FT, whether controlled via wireless, timer or in stand-alone mode, features rock-steady continuous output. Fogger can undertake a fast warm-up time less than 100 seconds and produces a steady, constant fog for as long as needed without any reheating time in between.	Cardboard	1009 0033	1.155,-
	Haze 500 FT Pro	HAZE 500FT PRO can work perfectly with laser beam, lighting and bring the best atmospheric effects to all events. The extraordinary low haze liquid consumption rate makes HAZE 500FT PRO much more energy-efficient and environmental-friendly.	Cardboard	1009 0050	8.365,-
	Haze 400 FT	The Haze 400 FT is equipped with an internal, maintenance-free air compressor, a sophisticated haze transfer mechanism, and a specially designed liquid tank, together with two haze nozzles capable of producing virtually invisible large volume of haze output. With an added on-board DMX which provides users to control the unit by any DMX 512.	Cardboard	1009 0010	5.290,-
	Low Fog 3000 FT	Powerful compressor and aluminum heater block and 3 variable fog output that can be used to select from a tiny cloud to the thickest fog. It is fully controllable via a LCD DMX 512 controller allowing the operator to set the volume control and timing precisely. Electricity is saved due to high efficient power control system and superior ventilation, thus permitting the fogger to operate at optimal low-level temperature.	Cardboard	1009 0080	46.700,-
			Single case	1009 0081	51.900,-
	Standard Fog liquid	Standard Fog produces a light fog which disappears quickly.	Cardboard	1098 0012	99,-
	Performance Fog liquid	Performance Fog creates a moderately dense and durable fog.	Cardboard	1098 0013	132,-
	Premium Fog liquid	Premium Fog produces an extremely dense and very long-lasting fog.	Cardboard	1098 0014	165,-

	Professional Haze liquid	Oil based liquid for Hazers.	Cardboard	1098 0027	397,-
	WeatherShield 1200	For partial protection of fixture's base against weather influences; Made from flame-retardant ABS; fits onto the ColorSpot 2500E AT, ColorSpot 1200E AT, ColorSpot 1200AT, ColorWash 1200E AT.	Cardboard	1098 0028	3.170,-
	WeatherShield 575	For partial protection of fixture's base against weather influences. Made from flame-retardant ABS; fits onto the ColorSpot 575E AT, ColorSpot 575AT, ColorWash 575E AT, ColorWash 575AT, ColorWash 575AT Zoom.	Cardboard	1098 0029	3.040,-
	Single Top Loader Case ROBIN DLX Spot	This case provides perfect protection for Robin's in the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0120	5.950,-
	Dual Top Loader Case ROBIN DLX Spot	This Dual Touring Case provides full protection two ROBIN DLX Spot units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13 mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0119	7.835,-
	Single Top Loader Case ROBIN 1200 LEDWash	This case provides perfect protection for a single unit of ROBIN 1200 LEDWash for the touring and rental market. It is constructed from high-quality, water repellent 13 mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0116	3.040,-
	Dual Top Loader Case ROBIN 1200 LEDWash	This Dual Top Loader Case provides full protection two ROBIN 1200 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13 mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0117	6.775,-
	Quad Top Loader Case ROBIN 1200 LEDWash	This case provides perfect protection for a four units of ROBIN 1200 LEDWash for the touring and rental market. It is constructed from high-quality, water repellent 13 mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0118	8.530,-
	Single Touring Case ROBIN MMX Spot	This case provides perfect protection for Robin's in the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0107	5.950,-
	Dual Touring Case ROBIN MMX Spot	This Dual Touring Case provides full protection two ROBIN MMX Spot units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13 mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0105	7.835,-
	Single Top Loader case ROBIN 600 LEDWash	This case provides perfect protection for a single unit of ROBIN 600 LEDWash for the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0097	2.575,-

	Dual Top Loader Case ROBIN 600 LEDWash	This Dual Touring Case provides full protection two ROBIN 600 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0094	5.885,-
	Dual Top Loader Case ROBIN 600 LEDWash II	This Dual Touring Case provides full protection two ROBIN 600 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0103	5.290,-
	Quad Top Loader Case ROBIN 600 LEDWash	This case provides perfect protection for a four units of ROBIN 600 LEDWash for the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0093	8.895,-
	Quad Top Loader Case ROBIN 600 LEDWash II	This Dual Touring Case provides full protection two ROBIN 600 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0102	7.405,-
	Hexa Top Loader Case ROBIN 600 LEDWash	This Dual Touring Case provides full protection of six ROBIN 600 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0104	8.895,-
	Single Top Loader case ROBIN 300 LEDWash	This case provides perfect protection for Robin's in the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0114	3.040,-
	Dual Top Loader Case ROBIN 300 LEDWash	This Dual Touring Case provides full protection two ROBIN 300 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0109	4.530,-
	Quad Top Loader Case for ROBIN 300 LEDWash	This case provides perfect protection for a four units of ROBIN 300 LEDWash for the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0108	6.050,-
	Hexa Top Loader Case for ROBIN 300 LEDWash	This Dual Touring Case provides full protection of six ROBIN 300 LEDWash units. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13 mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.		1012 0110	7.405,-
	Single Touring Case DigitalSpot 3500	This case provides perfect protection for Robe's DigitalSpot 3000 and 3500 DT in the touring and rental market. It is constructed from high-quality, water repellent 13mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners. This single case is equipped with four metal recessed wheels for easy transport.		1012 0101	5.885,-

	Dual Touring Case DigitalSpot 3500	This Dual Touring Case provides full protection for two Robe digital moving lights - the DigitalSpot 3000 and 3500 DTs. It was built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.	1012 0061	11.300,-
	Lid Set for Dual Touring Case DigitalSpot 3500	The Lid Set DS3000 and 3500 allows you to separate a double case into two single cases. It is manufactured from high-quality, water repellent 13 mm thick plywood. It has a black finish exterior and features aluminium protected edges and tough steel corners.	1012 0100	3.105,-
	Single Touring Case DigitalSpot 7000 DT	This robust Touring Case is designed for the safe transportation of the Robe DigitalSpot 7000 DT. It is constructed from high-quality, water repellent 13mm thick plywood. It features strong metal handles, hardwearing butterfly style latches and heavy duty wheels mounted on the reinforced base for easy transport. It has a black finish exterior and features aluminium protected edges and tough steel corners.	1012 0059	8.035,-
	Single Touring Case ColorSpot 2500E AT	This Touring Case is designed to meet rugged shipping conditions and reduce the possibility of your moving head being damaged. It's ideal for really such delicate device as the Colorspot 2500E AT is. The case is manufactured from high-quality, water repellent 13mm thick plywood. The features include durable construction, consisting of ball corners, strong metal handles and roller castors on the base to enable easy roll-on and roll-out.	1012 0053	11.100,-
	Dual Touring case CS 2500	Provides full protection of moving heads of 2500 AT series during transport. Built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 9 mm thick plywood. The exterior is covered in black finish with aluminium edge protection and tough steel corners. Roller castors on the base enable easy roll-on and roll out.	1012 0037	11.750,-
	Lid set for Dual Touring case 2500	The lid is manufactured from high-quality repellent 9 mm thick plywood exterior is covered in black finish with aluminium edge protection and tough steel corners. The lids allow to separate double case into two single cases.	1012 0041	3.335,-
	Dual Touring case 1200, CW 2500	Provides full protection of moving heads of 1200 AT series during transport. Built to endure the rigors of the touring and rental market. The case is manufactured from high-quality, water repellent 9 mm thick plywood. The exterior is covered in black finish with aluminium edge protection and tough steel corners. Roller castors on the base enable easy roll-on and roll out.	10120006-01	11.600,-
